

ATAC INFLATION ROTATION FUND – INVESTOR CLASS (ATACX)

SEMI-ANNUAL REPORT

ATAC INFLATION ROTATION FUND

April 1, 2018

Dear Fellow Shareholders:

On behalf of the Pension Partners team, we would like to thank you for your investment in the ATAC Inflation Rotation Fund.

The goal of the ATAC Inflation Rotation Fund ("ATACX") is to serve as a strategy which over time can enhance a portfolio's risk and return characteristics.

By utilizing a buy and rotate approach which uses historical leading indicators of volatility, our Fund places a large emphasis on risk management, seeking to rotate fully into Treasuries in advance of periods of market stress.

For the six month period ended February 28, 2018, the ATAC Inflation Rotation Fund returned 8.02% versus a return of 4.65% for the Lipper Flexible Portfolio Funds Index and a return of 4.11% for the ATAC Inflation Rotation Blended Index.

For the six month period ended February 28, 2018, ATACX experienced net gains in U.S. Small Cap Equities and Emerging Market Equities. ATACX experienced net losses in U.S. Large Cap Equities, Short Duration U.S. Treasuries, and Long Duration U.S. Treasuries. ATACX's outperformance relative to its benchmarks can be attributed to 1) concentration in Emerging Market Equities and U.S. Small Cap Equities during periods in which they outperformed the broader U.S. equity market, 2) use of leverage when exposed to Emerging Market Equities and U.S. Small Cap Equities, and 3) avoiding exposure to Long Duration U.S. Treasuries during a period in which they significantly underperformed the broader bond market.

Over a complete market cycle, it is risk management which we believe is the most effective way to compound wealth. Compounding wealth requires positive returns and the avoidance of large losses – there is simply no other way. Importantly, one must take a longer-term view and evaluate a strategy beyond small samples, understanding the process and role that strategy has in one's overall asset allocation policy.

Thank you again for your trust and confidence in our distinctive approach to portfolio management.

Sincerely,

Edward M. Dempsey, CFP® & Michael A. Gayed, CFA

Mutual fund investing involves risk. Principal loss is possible. Because the Funds invest primarily in ETFs, they may invest a greater percentage of its assets in the securities of a single issuer and therefore could be considered non-diversified. If a Fund invests a greater percentage of its assets in the securities of a single issuer, its value may decline to a greater degree than if the fund held were a more diversified mutual fund. The Funds are expected to have a high portfolio turnover ratio which has the potential to result in the realization by the Fund and distribution to shareholders of a greater amount of capital gains. This means that investors will be likely to have a higher tax liability. Because the Funds invest in Underlying ETFs an investor will indirectly bear the principal risks of the Underlying ETFs, including but not limited to, risks associated with investments in ETFs, large and smaller companies, real estate investment trusts, foreign securities, non-diversification, high yield bonds, fixed income investments, derivatives, leverage, short sales and commodities. The Fund will bear its share of the fees and expenses of the underlying funds. Shareholders will pay higher expenses than would be the case if making direct investments in the underlying funds.

All investing involves risks. Investing in emerging markets has more risk such as increased volatility, relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries and securities markets that are substantially smaller, less liquid and more volatile with less government oversight than more developed countries. Investing in small cap companies involve additional risks such as limited liquidity and greater volatility than large companies.

The Inflation Rotation Blended Index is a custom index comprised of a 50.00% weighting to the Bloomberg Barclays Aggregate Bond Index, a 33.33% weighting to the Russell 3000[®] Index, and a 16.67% weighting to the Russell Global Emerging Markets Index. The Bloomberg Barclays Aggregate Bond Index is an index composed of the total U.S. investment-grade bond market. The Russell 3000[®] Index is composed of 3000 large U.S. companies, as determined by market capitalization. The Russell Global Emerging Markets Index measures the performance of emerging countries equity markets based on all investable equity securities.

The Lipper Flexible Portfolio Fund Index is an equal dollar weighted index of the largest mutual funds within the Flexible Portfolio fund classification, as defined by Lipper.

Value of \$10,000 Investment (UNAUDITED)

The chart assumes an initial investment of \$10,000. Performance reflects waivers of fee and operating expenses in effect. In the absence of such waivers, total return would be reduced. Past performance is not predictive of future performance. Investment return and principal value will fluctuate, so that your shares, when redeemed, may be worth more or less than their original cost. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

EXPENSE EXAMPLE (UNAUDITED) FEBRUARY 28, 2018

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; interest expense; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (September 1, 2017 – February 28, 2018).

ACTUAL EXPENSES

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs may have been higher.

	<u>Beginning Account Value (9/1/2017)</u>	<u>Ending Account Value (2/28/2018)</u>	<u>Expenses Paid During Period⁽¹⁾ (9/1/2017 to 2/28/2018)</u>
Investor Class Actual ⁽²⁾⁽³⁾	\$1,000.00	\$1,080.20	\$12.22
Investor Class Hypothetical ⁽⁴⁾ (5% return before expenses)	\$1,000.00	\$1,013.04	\$11.83

(1) Expenses are equal to the Fund's expense ratio for the most recent six-month period of 2.37%, multiplied by the average account value over the period, multiplied by 181/365 to reflect the one-half year period.

(2) Based on the actual returns for the six-month period ended February 28, 2018 of 8.02%.

(3) Excluding interest expense, the actual expenses would be \$8.97.

(4) Excluding interest expense, the hypothetical expenses would be \$8.70.

ATAC INFLATION ROTATION FUND

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) FEBRUARY 28, 2018

1. ORGANIZATION

Managed Portfolio Series (the "Trust") was organized as a Delaware statutory trust on January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The ATAC Inflation Rotation Fund (the "Fund") is a diversified series with its own investment objectives and policies within the Trust. The investment objective of the Fund is to achieve absolute positive returns over time. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 Financial Services – Investment Companies. The Fund commenced operations on September 10, 2012. The Fund currently offers one share class, the Investor Class. Investor Class shares are subject to a 0.25% Rule 12b-1 distribution and servicing fee. The Fund may issue an unlimited number of shares of beneficial interest, with no par value.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Security Valuation – All investments in securities are recorded at their estimated fair value, as described in Note 3.

Federal Income Taxes – The Fund complies with the requirements of subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no cost to the Fund. Therefore, no federal income or excise tax provision is required. As of and during the period ended February 28, 2018, the Fund did not have any tax positions that did not meet the "more-likely-than-not" threshold of being sustained by the applicable tax authority. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. As of and during the period ended February 28, 2018, the Fund did not incur any interest or penalties. The Fund is not subject to examination by U.S. tax authorities for tax years prior to the fiscal year ended August 31, 2014.

Security Transactions, Income, and Distributions – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities.

The Fund distributes substantially all net investment income and net realized capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income and expense or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund.

ATAC INFLATION ROTATION FUND

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED FEBRUARY 28, 2018

Allocation of Expenses – Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion of changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing each Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis. The Fund's investments are carried at fair value.

Short-Term Investments – Investments in other mutual funds, including money market funds, are valued at their net asset value per share. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Exchange-Traded Funds – Exchange-traded funds are valued at the last reported sale price on the exchange on which the security is principally traded. If, on a particular day, an exchange-traded fund does not trade, then the mean between the most recent quoted bid and asked prices will be used. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board of Trustees. These procedures consider many factors, including the type of security, size of holding, trading volume and news events. There can be no assurance that the Fund could obtain the fair value assigned to a security if they were to sell the security at approximately the time at which the Fund determines its net asset value per share. The Board of Trustees has established a Valuation Committee to administer, implement, and oversee the fair valuation process, and to make fair value decisions when necessary. The Board of Trustees regularly reviews reports that describe any fair value determinations and methods.

4. INVESTMENT ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement with Pension Partners, LLC ("the Adviser") to furnish investment advisory services to the Fund. For its services, the Fund pays the Adviser a monthly management fee of 1.25% of the Fund's average daily net assets up to \$500 million, 1.15% of the Fund's average daily net assets on the next \$250 million, 1.05% of the Fund's average daily net assets on the next \$250 million, and 0.95% of the Fund's average daily net assets in excess of \$1 billion.

The Fund's Adviser has contractually agreed to waive a portion or all of its management fees and reimburse the Fund for its expenses to ensure that total annual operating expenses (excluding leverage, interest, taxes, brokerage commissions, extraordinary expenses, and acquired fund fees and expenses) based upon the average daily net assets of the Fund not exceeding an annual rate of 1.74%.

Fees waived by the Adviser may be recouped by the Adviser for a period of thirty-six months following the month during which such waiver or reimbursement was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the waiver occurred. The Operating Expenses Limitation Agreement is indefinite, but cannot be terminated within a year after the effective date of the Fund's prospectus. After that date, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board of Trustees or the Adviser. Waived fees and reimbursed expenses subject to potential recovery by month of expiration are as follows:

Expiration	Amount
March 2018 – August 2018	\$23,507
September 2018 – August 2019	59,221
September 2019 – August 2020	50,555
September 2020 – February 2021	1,804

U.S. Bancorp Fund Services, LLC ("USBFS" or the "Administrator") acts as the Fund's Administrator, Transfer Agent, and Fund Accountant. U.S. Bank N.A. (the "Custodian") serves as the custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Fund's custodian; coordinates the payment of the Fund's expenses and reviews the Fund's expense accruals. The officers of the Trust, including the Chief Compliance Officer, are employees of the Administrator. A Trustee of the Trust is an officer of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees paid by

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED) – CONTINUED FEBRUARY 28, 2018

As of August 31, 2017, the Fund had no short-term capital loss carryovers. During the year ended August 31, 2017, the Fund utilized \$7,529,944 in short-term capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital, and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31 and December 31, respectively. The Fund deferred no short-term post-October losses. The Fund deferred, on a tax basis, late year ordinary losses of \$502,083.

The tax character of distributions paid for the period ended February 28, 2018, were as follows:

Ordinary Income*	Long-Term Capital Gains	Total
\$8,544,249	\$ —	\$8,544,249

* For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income distributions.

The Fund did not pay a distribution during the year ended August 31, 2017.

9. LINE OF CREDIT

The Fund established an unsecured line of credit ("LOC") in the amount of \$7,000,000 or 33.33% of the fair value of the Fund's investments, whichever is less. The LOC matures, unless renewed on July 26, 2018. This LOC is intended to provide short-term financing, if necessary, subject to certain restrictions and covenants in connection with shareholder redemptions. The LOC is with the Custodian. Interest is charged at the prime rate which was 4.50% as of February 28, 2018. The interest rate during the period was between 4.25% and 4.50%. The weighted average interest rate paid on outstanding borrowings was 4.28%. The Fund has authorized U.S. Bank N.A. to charge any of the Fund's accounts for any missed payments.

The Fund also has a LOC with BNP Paribas for investment purposes. The loan is limited to one-third of the total assets (including the amount borrowed) of the Fund. The BNP Paribas LOC does not have an expiration date. Borrowings under this LOC bear interest at the 3-Month LIBOR rate plus 150 basis points, which was 3.52% as of February 28, 2018. The interest rate during the period was between 2.81% and 3.52%. The weighted average interest rate paid on outstanding borrowings was 3.06%. Collateral for all borrowing with this LOC is held with the Custodian and is part of the Fund's holdings.

For the period ended February 28, 2018, the Fund's credit facility activity was as follows:

Credit Facility Agent	Average Borrowings	Amount Outstanding as of February 28, 2018	Interest Expense	Maximum Borrowing
U.S. Bank N.A.	\$ 16,022	\$ —	\$ 344	\$ 673,000
BNP Paribas	23,776,990	—	366,101	47,609,875

10. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of that fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of February 28, 2018, Charles Schwab & Co., Inc. held 32.4% of the Fund.

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) PENSION PARTNERS, LLC

At the regular meeting of the Board of Trustees of Managed Portfolio Series ("Trust") on February 20-21, 2018, the Trust's Board of Trustees ("Board"), including all of the Trustees who are not "interested persons" of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended, ("Independent Trustees") considered and approved the continuation of the Investment Advisory Agreement between the Trust and Pension Partners, LLC ("Pension Partners" or the "Adviser") regarding the ATAC Inflation Rotation Fund (the "Fund") (the "Investment Advisory Agreement") for another annual term.

Prior to the meeting and at a meeting held on January 9, 2018, the Trustees received and considered information from Pension Partners and the Trust's administrator designed to provide the Trustees with the information necessary to evaluate the continuance of the Investment Advisory Agreement ("Support Materials"). Before voting to approve the continuance of the Investment Advisory Agreement, the Trustees reviewed the Support Materials with Trust management and with counsel to the Independent Trustees, and received a memorandum from such counsel discussing the legal standards for the Trustees' consideration of the renewal of the Investment Advisory Agreement. This information, together with the information provided to the Board throughout the course of the year, formed the primary (but not exclusive) basis for the Board's determinations.

In determining whether to continue the Investment Advisory Agreement, the Trustees considered all factors they believed relevant, including the following with respect to the Fund: (1) the nature, extent, and quality of the services provided by Pension Partners with respect to the Fund; (2) the Fund's historical performance and the performance of other investment accounts managed by Pension Partners; (3) the costs of the services provided by Pension Partners and the profits realized by Pension Partners from services rendered to the Fund; (4) comparative fee and expense data for the Fund and other investment companies with similar investment objectives; (5) the extent to which economies of scale may be realized as the Fund grows, and whether the advisory fee for the Fund reflects such economies of scale for the Fund's benefit; and (6) other benefits to Pension Partners resulting from its relationship with the Fund. In their deliberations, the Trustees weighed to varying degrees the importance of the information provided to them and did not identify any particular information that was all-important or controlling.

Based upon the information provided to the Board throughout the course of the year, including at an in-person presentation by representatives of Pension Partners, and the Support Materials, the Board concluded that the overall arrangements between the Trust and Pension Partners set forth in the Investment Advisory Agreement, as it relates to the Fund, continue to be fair and reasonable in light of the services that Pension Partners performs, investment advisory fees that the Fund pays, and such other matters as the Trustees considered relevant in the exercise of their reasonable business judgment. The material factors and conclusions that formed the basis of the Trustees' determination to approve the continuation of the Investment Advisory Agreement are summarized below.

Nature, Extent and Quality of Services Provided. The Trustees considered the scope of services that Pension Partners provides under the Investment Advisory Agreement with respect to the Fund, noting that such services include, but are not limited to, the following: (1) investing the Fund's assets consistent with the Fund's investment objective and investment policies; (2) determining for the Fund the portfolio securities to be purchased, sold, or otherwise disposed of, and the timing of such transactions; (3) voting all proxies with respect to the Fund's portfolio securities; (4) maintaining the required books and records for transactions that Pension Partners effects on behalf of the Fund; (5) selecting broker-dealers to execute orders on behalf of the Fund; and (6) monitoring and maintaining the Fund's compliance with the Trust's policies and procedures and with applicable securities laws. The Trustees also considered the substantial investment management experience of the Fund's portfolio managers, and further noted one portfolio manager had co-authored several white papers with respect to the theories and

strategies underlying Pension Partners' management of the Fund's assets. The Trustees concluded that Pension Partners has the quality and depth of personnel, resources, investment methods and compliance policies and procedures essential to performing its duties under the Investment Advisory Agreement and that the nature, extent and quality of such services are satisfactory.

Fund Historical Performance and the Overall Performance of Pension Partners. In assessing the quality of the portfolio management delivered by Pension Partners, the Trustees reviewed the short-term and longer-term performance of the Fund on both an absolute basis and in comparison to one or more appropriate securities benchmark indices, the Fund's respective peer funds according to Morningstar classifications, and as compared to performance of a composite of separate accounts that Pension Partners manages utilizing a similar investment strategy (the "Composite"). The Trustees noted that the Fund had outperformed its Morningstar peer group average over the year-to-date, one-year, three-year and five-year periods ended October, 31, 2017. The Trustees further noted that the Fund's performance ranked in the first, first, first, and twenty-second percentiles, respectively, over those periods. The Trustees also noted the Fund had outperformed its primary and secondary benchmarks over the same periods. In addition, the Trustees observed that the Fund's performance had been consistent with, but trailed the Composite. In making this observation, the Trustees considered that the difference in the Fund's performance relative to the Composite could be attributed to the greater use of leverage in the accounts that comprise the Composite.

Cost of Advisory Services and Profitability. The Trustees considered the annual advisory fee that the Fund pays to Pension Partners under the Investment Advisory Agreement, as well as Pension Partners' profitability from services that it rendered to the Fund during the 12-month period ended September 30, 2017. The Trustees also considered the effect of an expense limitation agreement on Pension Partners' compensation and that Pension Partners has contractually agreed to reduce its advisory fees and, if necessary, reimburse the Fund for operating expenses, as specified in the Fund's prospectus. The Trustees noted that the relationship with the Fund had been profitable for Pension Partners over the 12-month period ended September 30, 2017. The Trustees then considered that the management fees that Pension Partners charges to separately managed fee-paying accounts with similar investment strategies to that of the Fund are generally lower than the advisory fee for the Fund. The Trustees also took into account that Pension Partners has additional responsibilities with respect to the Fund, including additional compliance obligations, managing daily liquidity, and the preparation of Board and shareholder materials. The Trustees concluded that Pension Partners' service relationship with the Fund yields a reasonable profit to Pension Partners.

Comparative Fee and Expense Data. The Trustees considered a comparative analysis of the contractual expenses borne by the Fund and those of funds in the same Morningstar peer group. The Trustees noted that the Fund's advisory fee was significantly higher than the peer group median and average. The Trustees also considered the total expenses of the Fund (after waivers and expense reimbursements), noting they were significantly higher than the peer group median and average. The Trustees also considered the average net assets of the funds comprising the Morningstar peer group were significantly higher than the assets of the Fund. The Trustees noted that when limiting the benchmark category to funds with similar asset sizes, the total expenses of the Fund were closer to the peer group median and average. The Trustees further considered the Fund's unique investment strategy and the resources provided by Pension Partners' in implementing the Fund's strategies. While recognizing that it is difficult to compare advisory fees because the scope of advisory services provided may vary from one investment adviser to another, the Trustees concluded that Pension Partners' advisory fee with respect to the Fund continues to be reasonable.

ATAC INFLATION ROTATION FUND

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) – CONTINUED PENSION PARTNERS, LLC

Economies of Scale. The Trustees considered whether the Fund may benefit from any economies of scale, noting that the Investment Advisory Agreement includes breakpoints in the investment advisory fee schedule for the Fund at \$500 million, \$750 million, and \$1 billion in assets under management. The Trustees considered that the breakpoint structure of the Fund's investment advisory fee had the potential to share such economies with Fund shareholders as the Fund grows.

Other Benefits. The Trustees considered the direct and indirect benefits that could be realized by the Adviser from its relationship with the Fund. The Trustees considered that Pension Partners does not utilize soft dollar arrangements with respect to portfolio transactions and does not use affiliated brokers to execute the Fund's portfolio transactions. The Trustees considered that Pension Partners may receive some form of reputational benefit from services rendered to the Fund, but that such benefits are immaterial and cannot otherwise be quantified. The Trustees concluded that Pension Partners does not receive additional material benefits from its relationships with the Fund.
